# Objective and Characteristics of the Fund

## Objective of the Fund

This Fund seeks the net asset value per unit to track the performance of the benchmark index by mainly investing in the mother fund.

\* The benchmark index for Currency Hedge is Dow Jones Industrial Average (TTM, JPY-based, JPY Hedged) and the benchmark index for No Currency Hedge is the Dow Jones Industrial Average (TTM)(JPY).

- The Dow Jones Industrial Average is a price-weighted stock index composed of 30 excellent companies representing main sectors (excluding Transportation and Utilities) among stocks listed on financial instruments exchanges in the United States. In selecting components, company's sustainable growth and investor's high interest, etc. are considered. Dow Jones Industrial Average (TTM, JPY-based, JPY Hedged) is the JPY hedged local currency denominated index converted into JPY. Dow Jones Industrial Average (TTM)(JPY) is the local currency denominated index converting into JPY.

$$\text{Dow Jones Industrial Average} = \frac{\text{Combined price of 30 stocks used in the index}}{\text{Divisor}}$$

## Characteristics of the Fund

- ① Aim to achieve investment result that is linked to the movement of the benchmark index.
  - The fund will invest mainly in Index Mother Fund American Equity, with the aim of matching the rate of change in the net asset value per unit with the rate of change in the benchmark index.
  - <Currency Hedge>
    - The benchmark index to follow is Dow Jones Industrial Average (TTM, JPY-based, JPY Hedged).
    - For investing in foreign currency-denominated assets, in principle, currency hedging is carried out.
    - \* Currency hedging is carried out in order to reduce currency fluctuation risk, however, currency fluctuation risk cannot be eliminated completely. When currency hedging is carried out, if the yen interest rate is lower than the interest rate of the currency for which hedging is carried out, a hedge cost is incurred.
  - <No Currency Hedge>
    - The benchmark index to follow is Dow Jones Industrial Average (TTM)(JPY).
    - \* The above operation may not be possible due to market conditions and financial trends.
- ② Units are listed on Tokyo Stock Exchange and can be traded at any time during trading hours.
  - Units may be traded in blocks of 10 unit (as of the date when the securities registration statement was filed).
  - Brokers determine brokerage commissions.
  - The method of trading is generally the same as that for stocks.
  - \* Please contact your broker for further information.

## Fund Structure

The fund is managed on a family fund method where the investment is made through a mother fund.

### Major Investment Restrictions

- There is no restriction on the investment ratio in stocks.
- There is no restriction as to the investment ratio for assets denominated in foreign currencies.

### Distribution Policy

- As a general rule, the full amount of dividends and other income arising from the trust assets is distributed after deduction of expenses.
- \*There is no guarantee on the payment or the amount of dividend.

## **Tax Treatment**

Tax treatment for individual investors

### 1) Taxation upon sale of Units

- Gains on sale (capital gains) are deemed to be income from transfer and thus have to be filed to declare for separate taxation at 20.315%. When a beneficiary has chosen a designated account with tax withholding (an account with tax withholding at the taxpayer's position), tax will be withheld at sources at 20.315%. (As a rule, tax filing is not necessary.)

### 2) Taxation upon receipt of income distributions

- Income distributions are regarded as dividend income, and tax is withheld at source at 20.315%. (As a general rule, tax filing is not necessary.) You can also file a tax return, and choose either separated taxation, based on declaration, or consolidated taxation (under which the dividends received deduction is available).

### 3) Tax on Redemption and Termination Fee

- Gains on termination and redemption (capital gains) are deemed to be income from transfer and thus have to be filed to declare for separate taxation at 20.315%. When a beneficiary has chosen a designated account with tax withholding (an account with tax withholding at the taxpayer's position), tax will be withheld at sources at 20.315%. (As a rule, tax filing is not necessary.)
- By filing a tax return, you can offset losses upon sale (capital losses) against capital gains from listed stocks, dividends etc. from listed stocks, and interest income from public and corporate bonds and such like (as long as separated taxation has been chosen upon declaration). In addition, gains on sale (capital gains), income distributions, and interest income from public and corporate bonds etc. (if separated taxation has been chosen upon declaration) can be offset against capital losses from listed stocks and such like.
- When investing through the Nippon Individual Savings Account (NISA), dividend income and transfer income from newly purchased publicly offered equity investment trusts are exempt from taxation for an unlimited period up to a certain amount each year. The tax exemption is available only to those who meet certain conditions, such as opening a tax-exempt account with a distributor, and who purchase products that meet the requirements of the tax law. For details, please contact the distributor.
- In cases of being applied to the foreign tax deduction, tax on distributions may differ from the aforementioned descriptions.
- The aforementioned descriptions do not apply to Japanese corporations.
- Above tax rates are as of the date when the securities registration statement was filed, so there may change in the event that tax laws are revised. We recommend that investors consult a tax or similar specialist for details of tax treatment.
